ARCHIVES ITALIENNES DE BIOLOGIE

EDITED BY O. POMPEIANO

WITH THE SUPPORT OF THE CONSIGLIO NAZIONALE DELLE RICERCHE

EDITORIAL BOARD

G. Berlucchi (Pisa)
P. Brodal (Oslo)
M. Cuénod (Zürich)
E. V. Evarts (Bethesda)
Y. Laporte (Paris)
R. Levi Montalcini (Roma)
G. Moruzzi (Pisa)
E. Mugnaini (Storrs)
G. F. Poggio (Baltimore)
O. Pompeiano (Pisa)
M. Steriade (Québec)
C. Terzuolo (Milano)
W. D. Willis (Galveston)

VOLUME 120
1982

UNIVERSITY OF PISA

Arch. ital. Biol. ISSN: 0003-9829

Redaction: *Via S. Zeno, 31 – 56100 Pisa (Italy).*

Administration: « *Archives italiennes de Biologie* » – *Università – Lungarno A. Pacinotti, 43 – 56100 Pisa (Italy).*

Printer: « *E. Ariani – L'Arte della Stampa* » – *50015 Grassina – Firenze (Italy).*

CONTENTS OF VOLUME 120

NUMBERS 1-3, MARCH 1982

1. Measure of the correlation between brain activities: a methodological approach. A. Arduini . . . . . Page 3

2. On the application of systems analysis to neurophysiological problems. C. Terzuolo, J. F. Fohlmeister, L. Maffei, R. E. Poppele, J. F. Soechting and L. Young 18

3. Some physiological properties of the ascending brain stem reticular system. M. Mancia 72

4. Somatosensory rhythms in the awake cat: a single unit exploration of their thalamic concomitant in nucleus ventralis posterior and vicinity. J. J. Bouyer, A. Rougeul and P. Buser 95

5. Effects of REMs and PGOs on visual evoked responses during paradoxical sleep of cats. G. F. Ricci, E. Cherubini, G. L. Mattioli, B. Riccardi and R. Spallina 111

6. Cardiovascular regulation during sleep. A. Zanchetti, G. Baccelli, and G. Mancia 120

7. Animal hypnosis: an attempt to reach a definition. G. Carli 138

8. Study of the electrocerebral activity in partial epilepsies: its role for surgical treatment. G. F. Rossi, G. Colicchio, A. Gentilomo, P. Pola and M. Scerrati 160

9. Effect of magnocellular forebrain nuclei lesions on acetylcholine output from the cerebral cortex, electrocorticogram and behaviour. G. Lo Conte, F. Casamenti, V. Bigl, E. Milaneschi and G. Pepeu 176

10. Brain work: function, metabolism and blood flow. G. L. Lenzi 189

11. A new appraisal of high pressure nervous syndrome. R. Naquet 201

12. Visual wulst-optic tectum relationships in birds: a comparison with the mammalian corticotectal system. P. Bagnoli, W. Francesconi and F. Magni 212

13. Intracellular mechanism of photoreceptor excitation. A. Cavaggioni, A. Caretta and M. Melegari 236

14. Processing of visual signals in vertebrate photoreceptors. L. Cervetto and M. Piccolino 242

15. Electrophysiological and structural studies of the organization of inputs to ganglion cells in the turtle retina. P. L. Marchiafava 271

16. Les niveaux hierarchiques de l'organisation motrice. M. Meulders 283

17. Dynamics of the cerebellar output: a radioautographic study. C. Batini 295

18. Functional aspects of the inferior olive. P. Strata and P. G. Montarolo 321

19. Vestibular mechanisms related to vertical and torsional eye movements. B. Ghelarducci and M. Favilla 330

20. The integrative sensorimotor function of the LP-pulvinar complex. M. Palestini 346

21. The two types of motor apraxia. K. Poeck 361

NUMBER 4, SEPTEMBER 1982

1. Effects of stimulating the lumbar sympathetic trunk on cat hindlimb muscle spindles. C. C. Hunt, L. Jami and Y. Laporte . . . . . Page 371

2. A somatotopic and functional organization of the masticatory proprioceptors in the mesencephalic trigeminal nucleus of the frog. R. Marini and R. Bortolami . . . 385

3. Effects of subcortical electrolytic lesions on the head-eye turning response induced by electrical stimulation of the cat's pulvinar-lateralis posterior nucleus complex. E. MOTLES, C. INFANTE and M. PALESTINI 397

4. Corticopontine projections from the visual area of the superior temporal sulcus in the macaque monkey. C. GALLETTI, M. G. MAIOLI, S. SQUATRITO and P. P. BATTAGLINI 411
